

Dr. Sibel Eker

Research Scholar

Experienced scientific researcher in interdisciplinary systems analysis for the management of environmental socioeconomic systems, synthesizing knowledge and applications of model-based analytical methods

EXPERIENCE

- Aug 2021 – Present** **Assistant Professor**
Nijmegen School of Management, Radboud University, Netherlands
Assistant professor of system dynamics and model-based interventions in the Methods group
- Jul 2019 – Present** **Research Scholar**
International Institute for Applied Systems Analysis (IIASA), Austria
Empirical and model-based research to support long-term planning on sustainable lifestyles and negative emission technologies; training stakeholders and researchers on participatory modelling for climate resilience in a Climate-KIC project
- Aug 2020 – Jul 2021** **Senior Researcher**
Climate Interactive, Washington DC, USA
Led research and model development on economic impacts of climate change and land use change and terrestrial carbon cycle for the extension of global system dynamics models of climate economy and environment (integrated assessment models). Public engagement using interactive online simulators.
- Jul 2017 – Jun 2019** **Postdoctoral Research Fellow**
International Institute for Applied Systems Analysis (IIASA), Austria
Text-mining and participatory research on validation of resource management models; extension of Felix integrated assessment model to explore lifestyle change and land use scenarios; systems mapping of national wellbeing policies
- Jan 2017 – July 2017** **Postdoctoral Researcher**
Faculty of Technology, Policy and Management, Delft University of Technology, Netherlands
Developing a decision support tool for the World Bank using network modelling methods for the Bangladesh's multi-modal transport network; software and scenario development, methodological development for decision-making under deep uncertainty, geospatial data analysis
- Feb 2016 – Nov 2016** **Research Associate**
UCL Institute for Environmental Design and Engineering, University College London, UK
Participatory system dynamics modelling for integrated decision-making about housing, energy and well-being; stakeholder engagement; facilitation of a systems mapping workshop at UK DBEIS

EDUCATION

- Sep 2011-Mar 2016** **PhD in Policy Analysis**
Faculty of Technology, Policy and Management, Delft University of Technology, Netherlands
- Jun – Jul 2013** **Visiting student**

	<i>Engineering Systems Division, Massachusetts Institute of Technology (MIT), USA</i>
2009 – 2011	MSc in Systems Engineering, Policy Analysis and Management <i>Faculty of Technology, Policy and Management, Delft University of Technology, Netherlands</i>
2004 – 2009	BSc in Industrial Engineering <i>Faculty of Engineering, Bogazici University, Turkey</i>
Jan – July 2008	Exchange student <i>Industrial Eng. and Innovation Sciences (formerly Operations Management), Eindhoven University of Technology, Netherlands</i>

GRANTS AND FELLOWSHIPS

2017	IIASA Postdoctoral Fellowship for the research proposal titled “Validation of uncertainty-oriented systems models” (~85K EUR)
2016	Policy Engagement Grant by UCL Public Policy (10K GBP)
2016	Career Development Fund by UCL Bartlett School (1K GBP)
2011	Travel grant by TU Delft (~1K EUR)
	Further experience in writing for H2020 LC-GD-9-2-2020 (<i>as task leader</i>), H2020 LC-CLA-02-2019 and LC-CLA-10-2020 (<i>as work package leader</i>), Marie-Curie Innovative Training Networks (<i>MSCA-ITN-2020</i>), ERC Starting Grant (<i>ERC-StG-20</i>)

SCIENTIFIC SERVICE

2021	Outstanding reviewer award by <i>Environmental Research Letters</i> (IOP Publishing)
2021 – Present	Topic editor of <i>Sustainability</i> (MDPI)
2021 – Present	Contributor to IMAGE Sustainable Lifestyles project co-coordinated by Utrecht University and One Earth
2020 – Present	Associate Editor of <i>Humanities and Social Sciences Communications</i> by Springer Nature
2020	Reviewer for ERC Consolidator Grant Panel SSH2
2017 - 2018	Contributor to and reviewer of a global foresight study by Institute for Global Environmental Strategies (IGES) and UN Environment, titled “Society and Lifestyles in 2050: Insights from a Global Survey of Experts”
2016 - Present	Reviewer for the journals <i>Nature Climate Change</i> , <i>Nature Sustainability</i> , <i>Nature Food</i> , <i>One Earth</i> , <i>Interface Focus</i> (Royal Society), <i>Journal of Cleaner Production</i> , <i>Palgrave Communications</i> , <i>Mitigation and Adaptation Strategies for Global Change</i> , <i>Environmental Research Letters</i> , <i>Global Environmental Change</i> , <i>Appetite</i> , <i>Energy Policy</i> , <i>Science of the Total Environment</i> , <i>Sustainability</i> , <i>Environmental Innovation and Societal Transitions</i> , <i>Environmental Modelling and Software</i> , <i>Energy</i> , <i>Applied Sciences</i> , <i>International Journal of Environmental Research and Public Health</i>
2014 - Present	Reviewer for the annual International System Dynamics Conference

ORGANIZATIONAL ROLES

2021	Mentor within the IIASA Women in Science Club Mentorship Program
2020	Organizing committee member of the <i>Annual Meeting of the Society for Decision Making under Deep Uncertainty</i>
2020	Member of the IIASA Staff Social and Cultural Association

2019	Organizing the IIASA lecture by Prof. Katharine Hayhoe, <i>Barriers to Public Acceptance of Climate Science, Impacts, and Solutions</i>
2019	Group facilitator at the International Symposium on Global Sustainable Development Goals in a Mediatized World, organized by Austrian Academy of Sciences
2018 - 2020	Sustainability representative at the IIASA Staff Association Committee
2014	Organization of the <i>International System Dynamics Summer School</i>
2014 - 2015	<i>Vice President of the Student Chapter of the System Dynamics Society</i> , organization chair of the 15 th (2014) and 16 th (2015) PhD Colloquium
2013 - Present	Member of the <i>System Dynamics Society</i> , <i>Society for Decision Making under Deep Uncertainty</i>
2012 - 2015	Organizer of the Policy Analysis Lunch Lectures at Delft University of Technology

KEY COMPETENCES

Key expertise	System dynamics modelling, participatory modelling and stakeholder engagement, scenario planning, decision making under deep uncertainty applied in various climate change mitigation and sustainability contexts
Languages	English (fluent), Turkish (native), Dutch (conversational), German (conversational)
Analytical skills	Systems thinking, systems analysis, problem structuring, causal mapping <i>Mathematical modelling:</i> System dynamics, network modelling, agent-based modelling, (multi-objective) optimization, multi-criteria decision analysis, <i>Programming:</i> Python (various libraries for data analysis, visualization, modelling and software development); used R, Java and C/C++ in the past <i>Data analysis:</i> quantitative, text-mining and geospatial data analysis, qualitative data analysis (e.g. text analysis, coding using NVivo)

HONORS AND AWARDS

2009 - 2011	Scholarship by the Faculty of Technology, Policy and Management, TU Delft (~40K EUR)
2004 - 2009	Scholarship by Bogazici University
2004	Ranked 141 st in University Entrance Exam in Turkey (among ~1,5 mil. candidates)
2004	2 nd place in the Contest of Research Projects Among High School Students (Chemistry) organized by The Scientific and Technological Research Council of Turkey

TEACHING EXPERIENCE

2020 -	Co-supervising PhD student Gloria Crabolu from University of Surrey
2018 -	Co-supervising PhD student Phyllis Kwenda from University of Kwazulu-Natal
2019	Training professionals and academics on participatory systems modelling, EIT Climate-KIC
2019	<i>Institute for Management Research; Radboud University</i> Guest lecturer on agent-based modelling
2018	<i>Institute for Social Ecology; University of Natural Resources and Life Sciences (BOKU)</i> Guest lecturer on systems modelling to investigate sustainable consumption dynamics
2017	<i>Faculty of Technology, Policy and Management; TU Delft</i>

	MSc course on model-based decision making focussed on decision-making under deep uncertainty
2016	University College London
	Evaluation of MSc theses
2015	Faculty of Technology, Policy and Management; TU Delft
	MOOC Text Mining and Analytics on the edX platform
2015	Faculty of Technology, Policy and Management; TU Delft
	MSc course on introduction to systems engineering
2013-2015	Faculty of Technology, Policy and Management; TU Delft
	MSc course Advanced System Dynamics, to develop and teach the sensitivity analysis module
2012-2016	Faculty of Technology, Policy and Management; TU Delft
	MSc course on continuous modelling, to supervise group projects
2012-2015	Faculty of Technology, Policy and Management; TU Delft
	BSc course on continuous modelling (system dynamics) to supervise group projects
2010-2015	Faculty of Technology, Policy and Management; TU Delft
	MSc course on model-based decision analysis, including subjects such as linear programming, optimization and multi-criteria decision analysis
